

# ERYD 32

the state of the art of ERYD 's daysailers

Since 2006, ERYD daysailers have been synonymous with elegance, performance and innovation. They are instantly recognisable sailing in the Mediterranean, the Atlantic coast, and on lakes across the European continent.

In 2015 the ERYD 30 was included in the YTEM catalog (Yacht'n Italy Export Museum) and was cited as one of the ten masterpieces of the Italian Design in Naval Industry from the years 2000 to 2015.

The ERYD OPEN was the most innovative daysailer in terms of cockpit's design and ergonomics . Today the experience gained in all these years and the main qualities of these two models are summarized and take on new form in the ERYD 32, the state of the art of ERYD 's daysailers.

2006. ERYD 30

2009. ERYD OPEN

- 1 . The hull is wider, more powerful. The shape is optimized to give more stability upwind and more hydrodynamic efficiency at high speeds surfing downwind.**
- 2 . The double rudders system guarantees excellent maneuverability at every heel angle.**
- 3 . Self-tacking jib and flush-deck jib furler for maximum efficiency and easy sailing.**
- 4 . Carbon built mast and boom.**
- 5 . Retractable carbon bowsprit**

**6 . Large flush deck hatches for direct engine inspection and stowage.**

**7 . The mast doesn't need backstay.**

**8 . Side hatches for electrical panel and digital engine panel.**

**9 . The entrance is very large and comfortable. It allows to stow inside the benches that can create a "dinette" below the deck.**

**10 . Retractable cleats**
